INT-RS Plus

RS–232 INTERFACE FOR SYSTEM INTEGRATION

The **INT–RS Plus** module enables software integration of **INTEGRA** and **INTEGRA Plus** alarm systems, including the **INTEGRA 256 Plus** control panel. Its capabilities make remote management of these control panels possible from a third–party software level.

- RS–232 interface connected to keypad bus
- communication with the **GUARDX** program
- monitoring support by RS–232
- open protocol for integration with other systems (requires implementation of RS–232 protocol on the third–party system side)
- galvanic isolation protecting against the potential difference

TECHNICAL DATA

Environmental class	II
Supply voltage	12 V DC
Board dimensions	57x80 mm
Operating temperature range	-10...+55 °C
Standby mode current consumption	35 mA
Max. current consumption	40 mA
Weight	42 g
