ANT-GSM-I

GSM ANTENNA

The ANT–GSM–I dual band antenna is designed to work in conjunction with the **PERFECTA 16**, **PERFECTA 16–WRL**, **PERFECTA 32**, **PERFECTA 32–WRL**, **VERSA Plus**, **INTEGRA 128–WRL** control panels and the modules: **GSM–X**, **INT–GSM** and **MICRA**. ANT–GSM–I can be put into SATEL's plastic enclosures, having a special place for mounting of these devices, for example, OPU–4 P, OPU–3 P, OPU–2 B

The antenna operates in two frequency bands: 900/1800 MHz.

- 900/1800 MHz antenna
- designed for mounting in **OPU–2 B**, **OPU–3 P** and **OPU–4 P** enclosures
