

APS-055

FLUSH-MOUNTED 5 VDC / 0.5 A POWER SUPPLY

The **APS_055** switching power supply is designed for powering 5 VDC devices. It can be used as an external power source for SATEL wireless keypads, e.g.:

- INT-KWRL2 (electronics version 3.2 or newer),
- PRF-LCD-A2 (electronics version 2.2 or newer),
- PRF-LCD-WRL (electronics version 2.2 or newer),
- VERSA-KWRL2 (electronics version 2.2 or newer).
- Nominal output voltage (according to IEC 38): 5 VDC.
- Output voltage stabilization.
- Output current: 0.5 A.
- Input interference filter.
- Electronic short-circuit protection of AC mains power supply circuit.
- Electronic short-circuit and overload protection of the power output.
- Mounted in in–wall and on–wall electrical junction boxes with a minimum diameter of 60 mm

TECHNICAL DATA

Environmental class	1
Operating temperature range	-10°C+55°C
Weight	37 g
Dimensions	47 x 47,4 x 22 mm
Rated output voltage	5 V DC
Energy efficiency	up to 72%
Nominal output voltage (according to IEC 38)	5 V DC
Power supply type (according to EN50131)	В
Power supply output current	500 mA
Supply voltage	195265 V AC
Current consumption by power supply circuits	3 mA
