

INT-AVT

ALARM ACOUSTIC VERIFICATION PANEL

The INT—AVT alarm acoustic verification panel supplements the INT—AV module. It is equipped with a speaker and a microphone which enable two—way voice communication between the monitoring station personnel and persons present in the protected site.

- two-way transmission of audio signals between the intercoms and the telephone line
- two-way communication activation button
- up to 4 INT—AVT panels may be connected to the INT—AV module
